Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

RATES UPON APPLICATION

INTRODUCTION

Hill Directory Company, Inc., presents to its subscribers and to the general public this (1928) edition of the Wilmington (City) Directory.

Confidence in the growth of Wilmington, in its wealth, industry and population, as well as in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for truly the directory is a mirror reflecting Wilmington to the world.

The enviable place occupied by Hill Directory Company's directories in offices, stores, libraries and homes throughout our country causes the publishers to forecast the belief that the Wilmington directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labor will meet with the approval of every resident of the city.

POPULATION

The estimated population of Wilmington is 42,930, based on the number of individual names in the alphabetical section of the Directory, with due allowance for women and children, whose names are not included. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory.

FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 17 to 48, printed on tinted paper, contains the advertisements of the leading manufacturing, business and professional interests of Wilmington. These pages will be found particularly interesting and instructive to the substantial elements of the city. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and as such merits a survey by all buyers keen to prime themselves on sources of supply. The city's activities, in many interesting phases, are interestingly pictured to reveal what it has in its show window. In an ambitious and progressive community like Wilmington the need of

INTRODUCTION—Continued

this kind of information readily at hand is very great and frequently pressing. General appreciation of this fact is evidenced by the liberal patronage the City Directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms, corporations is included in pages 49 to 536. (A new feature of this section is the inclusion of wives' names in parenthesis following that of the husband.)

THE STREET AND AVENUE GUIDE AND DIRECTORY OF HOUSEHOLDERS covers pages 537 to 656. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 657 to 736. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between buyer and seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory Section than through any other medium."

MUNICIPAL PUBLICITY

The Directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To give emphasis to their desire to broadcast this information over the country, the publishers have placed copies of this issue of the Directory in Directory Libraries, which are maintained in all the larger cities of the country, where they are readily available for free public reference and serve as perpetual advertisements of Wilmington, for business men the country over realize that the City Directory represents the community as it really is.

HILL'S DIRECTORY LIBRARY

There are over 400 of these Directory Libraries in the chain. One of them is maintained at the Chamber of Commerce. The publishers invite use of it by the public whenever in the need of information on other cities.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., INC., Publishers.

WILMINGTON

STATISTICAL INFORMATION

Furnished by Chamber of Commerce

Name of City—Wilmington, North Carolina.

Slogan or sub-phrase—"The Only Deep Water Port in North Carolina."

Form of government—Commission form.

Population—1920; 33,372; 1928, 42,382.

Area—4½ square miles.

Altitude—30 feet.

Assessed valuation—\$45,500,000, with \$1.20 per \$100 valuation.

White population is 66 2-3 per cent of above total.

Colored population is 33 1-3 per cent of above total.

White population of age: Males, 12,298; females, 12,680.

Number of all males is 20,536, and of all females is 21,846.

Native-born population is 99 7-10 per cent of whole population.

Predominating nationalities in city are American, Irish, German, Italian.

Parks—6, with 225 acres, valued at \$150,000.

City's bonded debt is \$2,195,900.

Financial—1 commercial bank, 3 trust companies, with total deposits of \$21,499,411.13; resources, \$29,000,000, and clearings of \$275,000,000 annually. Three savings banks, with \$7,214,380.13 total deposits.

Post office receipts of \$258,060.44.

Telephones in service—4,575.

Church buildings—35 white, 40 colored.

Building and construction—Value of building permits, \$1,500,000, with 165 new dwelling units constructed this year. Great amount of residential building in suburbs not included.

Real estate—Number of homes, 7,750, with about 75 per cent owned.

Industry—Number of establishments, 125, employing 13,793 men and 5,651 women, paying wages \$13,000,000 annually and having products valued at \$50,000,000 annually.

Trade—Territory (retail) serves 225,000 people within the trading area covering a radius of 75 miles. Jobbing territory serves 400,000 people within a radius of 150 miles.

Hotels—There are 4 hotels, with total of 475 rooms. Newest hotel was built in 1926.

City served by Atlantic Coast Line and Seaboard Air Line Railroads.

Amusements—Largest theatre or auditorium seats 1,100 people. There are 4 theatres, with a total seating capacity of 4,400 people.

Hospitals—Number, 4, with 325 beds.

Education—Names of colleges, etc.: Motte Business College, Wilmington Law School. Number of schools, 11, including 1 high school, 2 parochial schools. Number of pupils in public schools, 9,000; in private schools, 1,000. Total of all teachers is 250. Value of all school property, private and public, approximately \$1,300,000.

There are 15,671 volumes in the libraries of the city.

City statistics—Total street mileage, 150, with 65 to 75 miles paved, continuing miles under construction or ordered. Miles of gas mains laid, 45; of sewers, 74; electric street railway, 16 miles. Capacity of water works, 8 million gallons; daily average pump of 3,500,000 gallons, with 74 miles of mains and value of plant estimated at \$1,500,000. Fire department employs 45 men with following equipment: 1 auto, 2 engines, 5 hose and chemical wagons, 5 hook and ladder trucks, 1 fire boat, 1 aerial ladder in 3 station houses. Value of fire department with property is \$165,000. Police department has 1 station and 5 pieces of motor equipment; value, \$20,000.

PREFACE

(Furnished by Chamber of Commerce)

A city strategically situated on the Cape Fear River, blessed by nature with a variety of resources and kept up-to-date by the hand of man. It possesses both trunk line rail and deep water transportation, which gives it low freight rates and permits quick freight movements in great volume.

It is both important as a port and as industrial city, while it is the pivotal point for a rich and large agricultural area, and is the trading center for fully 225,000 people, the city being their nearest, as well as largest market.

As a port, it possesses a fresh water harbor 28 miles from the bar. Ice is an unknown quantity in the river, which has a deep water channel, up and down which go big ocean steamers, bound for Europe, Latin America and other foreign shores.

Its exportations and importations are large and ever growing, which mark a successful port. As a cotton port it yearly sends forth approximately two hundred thousand bales per year, and this record is evidently going to be surpassed. Its imports cover a large field in variety and come from practically every quarter of the globe.

Within the past year or two the population of Wilmington has increased in a tremendous way, and it is now a city of about 42,000 population, housed in comfortable homes. To accommodate the increasing population not only have individuals built homes, but the citizens formed what is known as the Victory Home Company, with an authorized capital of a million dollars and PAID IN OF \$250,000.00 to erect houses, which object has been successfully carried out.

Regardless of conditions the year has already witnessed preparations for big building operations. Among recent enterprises located here are several large new fertilizer factories, a large readi-cut house plant of the Aladdin Company, the Atlantic Refining Company, the Galena Signal Oil Company, the American Molasses Company; Southland Manufacturing Co., Weller Pickle Co., Wilmington Veneer Corp, Dupont Nitrates Co., W. R. Grace & Company, Nehi Bottling Co., Cobett Crate Co., Mavis Crate Co., and others, thus supplementing the city's already large number of such industries.

The natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast State in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all of New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

From the Middle West the Panama Canal is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington will not be subject to the dangers of Cape Hatteras.

Wilmington is the center of the greatest vegetable producing district in the United States. A few years ago no strawberries were raised except for domestic use; now WILMINGTON IS THE CENTER OF LARGEST STRAWBERRY RAISING DISTRICT IN THE WORLD. It is the LARGEST LETTUCE-PRODUCING DISTRICT IN THE WORLD, and next to the largest peanut market.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems, Wilmington, Brunswick and Southern Railway, the Clyde Steamship Line to New York, and foreign services.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 51.05 inches, average annual clear days, 132 (New York, rainfall, 44 inches; clear days, 118; New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for homeseekers.

The Wilmington district is one of the greatest trucking regions in the United States, and the yield for this early crop reaches the sum of nearly eighteen million annually.

Nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by fifteen miles and Savannah by thirty miles.

One of the largest distributing points south of Baltimore for products of the Standard Oil Company.

Has immense terminals that can load sixteen ocean-going ships at one time, providing them with over 600,000 square feet of warehouse space.

In the war had two immense shipyards, properties having been converted into industrial and civil uses. Had the honor of possessing the only Government-owned steel shipyard in South, and first Government-owned concrete yard in country.

The commerce on the Cape Fear River at and below Wilmington last year averaged approximately 1,000,000 tons, with valuation of more than \$67,000,000.

South of Hatteras, thus assuring safety to vessels from Latin America and other countries to the south of the United States, and occupies strategic position of advantage to such countries.

River never has ice, which permits year 'round navigation, and climate is never too cold to make work outdoor as hardship or discomfort.

Has many fertilizer factories, petroleum products terminals, lumber plants and a number of fish factories, employing thousands of men.

Has handsomest custom house in the South, the cost of which was more than \$700,000.

Next terminal of inland waterway canal, this link being from Beaufont to the Cape Fear River. Board of Engineers has recommended extension, work on which will start at once.

Wilmington has two immense cotton compresses and a marine railway. The steel shipyard operated during the war by the George A. Fuller Company is being converted into an industrial center. The concrete shipyard property is owned by the city and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for State-owned terminals and warehouses.

With both water and rail transportation, thus affording quick hauls and low freight rates, and near the scenes of raw material, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and Seaboard Air Line—place the city near the great coal fields and the iron-producing zones.

Wilmington has manufacturing plants of many kinds, cotton, garments mills, wood and metal works, cement concerns, cotton factories, candy factories, readi-cut house plant, modern machine shops, many big fertilizer factories, saw mills, oil stations, etc.

A modern cold storage plant is located here.

Second distributing point for fertilizer in the South. Has many immense fertilizer factories and two others have recently been built.

Leading banking center of State, its banks having total resources of approximately \$28,000,000. Growing steadily all the time.

Jobbing business goes over \$80,000,000 annually, and retail merchants do wide business, as city is trading mecca for a section of over 225,000 people.

City of big weekly pay rolls. Annual pay rolls upward of \$13,000,000, distributed among thousands of employees.

Headquarters of Atlantic Coast Line System, employing locally about twenty-two hundred men and women. Monthly pay roll of Coast Line nearly \$400,000.

Wonderful all year round climate and a health record praised by the United States Government.

The Wilmington section has crop growing days to the number of 250, which is the equal of Northern Mexico, though with the advantage of an ample and equitable rainfall.

Wilmington is terminus of six major highways of North Carolina's splendid good road system, and the city is also an important point on the Atlantic Coastal Highway extending from Portland, Maine, to Miami, Fla., the Calhoun Highway from Athens, Ga., to the ocean at Wilmington, and Federal Routes 17 and 17-I.

City of fine streets, beautiful homes, great churches and modern schools. In a county netted by good roads, the superior not to be found anywhere.

Place of modern amusements, with best beach resorts on South Atlantic Coast within thirty minutes' ride of the city.

Most popular beaches on South Atlantic, almost on threshold of city.

A metropolis with a Chamber of Commerce aroused to the city's great advantages and eager to answer all questions and extend hearty co-operation. Write the Chamber of Commerce for any information desired.

WILMINGTON HOUSEHOLDERS' DIRECTORY (1928) 537

HILL'S Wilmington Street and Avenue Guide AND Directory of Householders 1928

Copyright, 1928, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order without regard to geographical location, then the intersecting streets being shown. The number of each building on the street is given in numerical order. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession, business, etc., of individuals and firms are only given at their respective place of business; to find occupation of householders, refer to Alphabetical List of Names.

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

Advertising is the foundation upon which successful businesses are built. You must apply this to your own particular business.

Advertising is the power of an idea multiplied.

RATES UPON APPLICATION

No other service compares with City Directory service

HILL DIRECTORY CO., Inc.
PUBLISHERS

8 North Sixth St. (4th floor)

RICHMOND, VA.

WHY

Do 90 per cent of the advertisers in this city catalogue renew their advertisements year after year?

BECAUSE

They believe in service and wish to make it easier for the BUYER to find them.

The EYE is seventeen times stronger than the EAR.

Research has proven that impressions received through the eye are seventeen times more effective than those received through the ear.

Your advertisement in the City Directory reaches the vision of your prospects all over the city 365 days in the year, because some one is using it every hour in the day.

Hill Directory Co., Inc.
PUBLISHERS

8 N. 6th St. (4th Floor)

RICHMOND, VA.

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
